

## Mooc 3: Being an animator of the ecosystem

Dear lecturer, this is our fourth newsletter and we would like to update you with more information about our 3th and last module course and the latest news. In case you did not enroll already for this course this is the moment to do it.

### MOOC Info

This MOOC is oriented Open Badges in organisations and its urge to be implemented. The roles that aims to achieve are:

- Identify actions related to the RDM that can be recognised by OBs;
- Explain and convince data management stakeholders of the desirability of issuing OBs;
- Support the implementation of Open Badges.

This course should enable you to consolidate the notions seen in previous courses (Understanding Open Badges and Basics of managing and sharing research data)

### Main Objectives

This will enable you to:

- Define the roles of a facilitator in the ecosystem
- Identify the activities and skills related to Research Data Management (RDM)
- Identify the main arguments for using OBs in an RDM process
- Be familiar with the main steps of project management Know the process for creating and issuing an OB
